

This message is regarding the NJ Do Not Call Law. Leave it alone!!!
I am a single mother and have approximately 2 1/2 hours a night to spend with my daughter. The fact that I do not have to get up every 10 minutes to answer a call from a telemarketer that doesn't take "no" for an answer is a blessing. The postal service has worked wonders for decades and if a company wants to do business with me, they can simply mail me the information.
